# ***Advanced Technology***

Pegasus Offset Blankets are designed and produced applying the most advanced technology.

Continuous quality improvement and innovation are the bedrock principles of our Research & Development Division.

This assures our blankets will respond to your demanding high-quality printing.

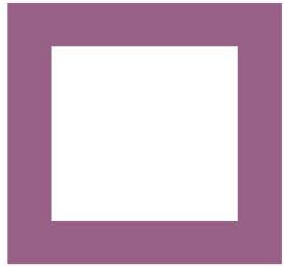

Pegasus Offset Blankets are formulated based on the demanding printing industry chemical and mechanical requirements.

As a result, we can provide full compatibility with your needs.

Over 40 years of manufacturing experience assures product consistency blanket after blanket.

**Resulting in...**

**Minimum**

**Downtime**

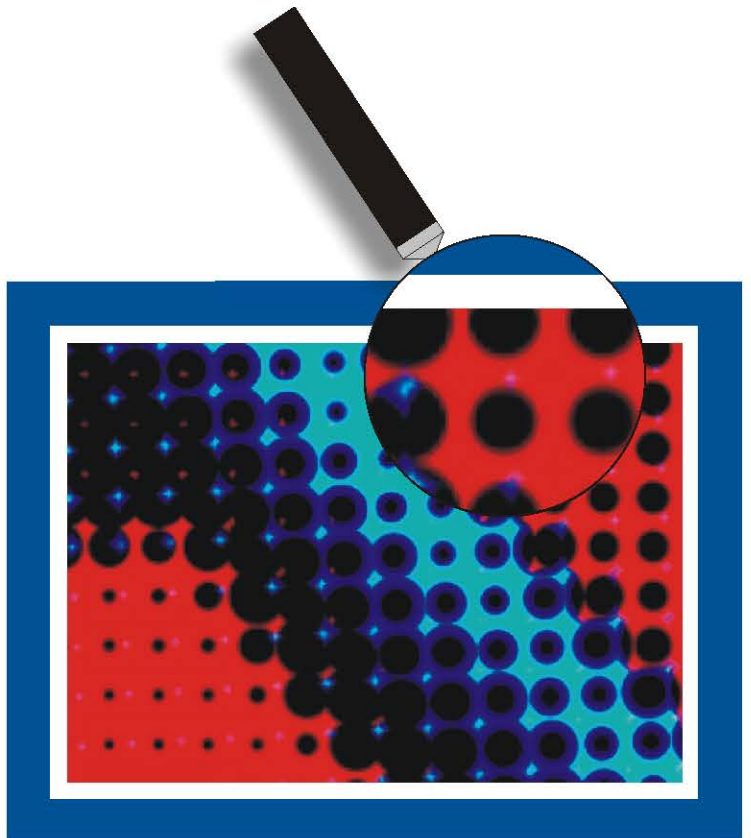

You will obtain maximum printing quality due to the compatibility between your inks and the Pegasus Offset Blankets. Sinking or swelling will not take place.

Our enclosed Selection Chart shows our wide variety of Pegasus Offset Blankets.

**T**here is no second-guessing when we recommend a blanket for your printing needs. The blanket we recommend will work. Downtime will be minimized. You will not have to test one blanket after another to find the one that is just right for you.

Before we recommend a Pegasus Offset Blanket we fully evaluate your printing requirements. We run a compatibility test to determine which blanket surface exactly matches your inks.
